POLICY STATEMENT

ITEM: Renewals of P.C.V. or Extra-provincial operating licences.

OBJECTIVE: To clarify procedures with respect to renewals of operating licences that have expired as a result of a failure to renew vehicles licences.

COMMENT: The *Public Commercial Vehicles Act*, Ontario, Section 11, subsections 1 and 2 provides:

“(1) An operating licence for which a day for expiry has not been fixed expires on the 1st day of July in each year or on the expiry of all vehicle licences issued pursuant to the operating licence unless before such date or such expiry, as the case may be, the holder of the operating licence has applied for and acquired one or more vehicle licences for the period immediately following such date or such expiry, as the case may be.

(2) Where the holder of an operating licence has acquired vehicle licences in accordance with subsection (1), his operating licence is deemed to be renewed for the period for which the vehicle licences are issued. R.S.O. 1980, c. 407, s. 11, *part*”.

A person holding an operating licence which has expired pursuant to those provisions may apply for a new licence, subject to the determination of public necessity and convenience by the Board, by making application(s) for an operating licence in the same manner or similar terms as those in the former licence.

STATEMENT:

1. Where a person who has failed to renew his operating licence:

- applies for temporary and permanent authorities on or before the 30th day of September and
- supports the application for renewal by an affidavit stating:

- (a) that the licence was valid and operated on a continuous basis during the previous vehicle licensing year, and,
- (b) the reason for the failure to purchase the necessary vehicle licences as required,

the Board may issue temporary authority in the same or similar terms as the previous operating licence, and publish the application under Section 8 of Regulation 632 pursuant to the *Ontario Highway Transport Board Act* of Ontario.

If the application is opposed, the matter will be set down for a public hearing. The applicant would be expected to attend and to support his application with public witnesses.

2. Where a person has failed to renew his operating licence:

- applies for temporary and permanent authorities after September 30th but before January 1st; and
- supports the applications by filing the affidavits outlined in 1 above and an affidavit from a shipper or shippers to the effect that the applicant has provided service on a continuous basis in accordance with the terms of his operating licence during the previous licensing year,

the Board may issue temporary authority in the same or similar terms as the operating licence, and will set the permanent application down for a public hearing. The applicant will be expected to attend the hearing and support his application with public witnesses if the application is opposed.

3. Where a person fails to renew his operating licence:

- applies for renewal in any form on or after January 1st, the application(s) will be treated in the same manner as a new applicant and the Board will set the matter down for a public hearing.

4. This Policy Statement supercedes the Policy Statement issued on August 2, 1979.

(7477) 40

G. J. NORTON,
Acting Chairman.

POLICY STATEMENT

ITEM: Applications that in effect split an operating licence whether by application *de novo* or by application for transfer.

OBJECTIVE: To prevent abuse of licence privileges, duplication of authority, distortion of competitive factors.

POLICY: The Board will henceforth only consider applications where all the privileges contained in a particular class of licence are being transferred — e.g., all the Class ‘T’ privileges may be severed from a Class ‘A’ licence or all the Class ‘A’ privileges from a Class ‘C’ licence, etc.

EFFECTIVE DATE: Immediate.

(Applications filed prior to October 1, 1985 on which no Certificates or Orders have been issued will have the filing fee refunded).

O. Reg. 470/85.

Exemption—Ministry of Natural
Resources—MNR-39/4.

Made—September 4th, 1985.

Approved—September 4th, 1985.

Filed—September 17th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-39/4

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of implementing projects under the Ministry of Natural Resources Special Employment Programs which consist of:

1. Projects carried out as part of the joint Federal—Provincial Job Creation Program and the Federal Job Creation Program under section 38 of the *Unemployment Insurance Act* and involving the:
 1. Mining Sector Special Employment Work Program
 2. Forest Sector Special Employment Work Program
 3. Fisheries and Wildlife Special Employment Work Program
 4. Conservation Authorities Sector Special Employment Work Program
 5. Provincial Parks Sector Special Employment Work Program

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be damaged because the objective of short-term job creation may be impeded by taking time for preparation and submission of an environmental assessment for this undertaking.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment

which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The program is short-term, with projects to be completed by March 31, 1986.
- B. The prime objective of the program is aimed at providing short-term job opportunities for people who are currently unemployed.
- C. This order exempts only those projects which are carried out under the program which form part of the undertaking and does not exempt similar projects undertaken as part of the normal operations of the Ministry of Natural Resources.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall provide the Environmental Assessment Branch, within thirty days of the approval of this exemption, a list of the anticipated projects that will be exempted. The list shall include the following information on each project:
 - project description and location;
 - the scheduled project commencement and completion date;
 - the MNR District within which the project will be carried out;
 - any related projects.

This list and information will be revised and forwarded to the Environmental Assessment Branch as additional projects are proposed and approved, or deleted.

2. Where a project exempted by this order is the same as an undertaking for which a Ministry of Natural Resources' Class Environmental Assessment has been submitted and approved, that project shall be carried out in accordance with the applicable Environmental Quality Guidelines and Environmental Quality Implementation Handbook.
3. This exemption order expires on March 31, 1986. Any project not completed by that date is not covered by this exemption order.

Exemption—Ministry of Government
Services—MGS-65.

Made—September 11th, 1985.

Approved—September 11th, 1985.

Filed—September 17th, 1985.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-65

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of interim property management consisting of the removal or demolition of existing structures and levelling of a site known as 225 and 227 Howey Street, and 6 Patricia Drive in the Township of Red Lake, District of Kenora,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Government Services will be interfered with in that an environmental assessment will be required for an undertaking that will have insignificant adverse effects.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The balance of the interim property management that the Ministry of Government Services proposes for this site is already exempt under the existing Exemption Order MGS-4 and the Ministry of Government Services has informed me that adverse environmental impacts are not expected to be created by either that part of the undertaking exempted hereunder or that part exempted by MGS-4.

- B. The Ministry of Citizenship and Culture has reviewed the undertaking and advised that it will not adversely affect any important heritage features since the only historic building will be relocated by the municipality to a new site.

This exemption is subject to the following terms and conditions:

1. The Ministry of Government Services shall ensure that any open basement or other excavation is filled and graded, and all remaining debris from any structure is removed from the site within thirty days of demolition or removal of the structure having been completed and in any event the demolition or removal of all structures and the filling and grading shall be complete by and no further work shall be done under this Order after December 31, 1985.
2. The Ministry of Government Services shall through written notice inform the Environmental Assessment Branch that they have complied with the requirements of condition 1.
3. The date specified in condition 1 may be extended by the Minister of the Environment to a date not later than June 1, 1986 upon written application by the Minister of Government Services. O. Reg. 471/85.

Occupational Health and Safety Act

MINISTRY OF LABOUR

NOTICE OF POSSIBLE DESIGNATION OF

POLYCHLORINATED BIPHENYLS (PCBs)

TAKE NOTICE that polychlorinated biphenyls (PCBs) may be designated under the Occupational Health and Safety Act section 22, as substances to which the exposure of a worker is prohibited, regulated, restricted, limited or controlled by regulation.

TAKE NOTICE that briefs or submissions are called for as to whether PCBs should be designated and that such briefs or submissions are to be submitted within 90 days of the publication of this notice in The Ontario Gazette.

By this notice the Ministry is giving interested parties an opportunity to provide information on any and all issues which may concern them about the worker exposure to PCBs and its control. The government is committed to an open and consultative process for the development of designated substance regulations on the basis that this is more likely to result in quality regulations which are more understandable and acceptable to the affected parties.

All comments that are received in response to this notice will be analyzed. In order to proceed in the most expeditious manner, should a decision be made to proceed with the designation of PCBs, a proposed regulation will be published in The Ontario Gazette for comment not later than May, 1986. This schedule will be adhered to.

Before making further decisions on the proposed control strategy for the control of occupational exposure to PCBs, the Ministry is seeking comments on the appropriateness of designation, and on any issues arising from this action which may be of concern to interested parties.

The Ministry is particularly interested in receiving comments and suggestions on the following topics:

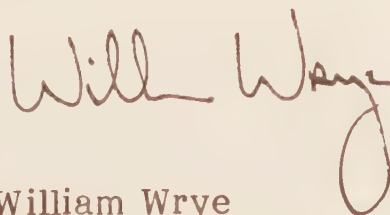

- the acute and chronic health effects attributable to PCB exposure in the work place;
- the need for an exposure limit, the appropriate value thereof and the basis on which to establish such a value;
- the appropriateness of addressing the control of exposure to polychlorodibenzofurans (PCDFs) and polychlorodibenzodioxins (PCDDs) associated with PCBs through the control of PCB exposure;

- the appropriateness of an exemption for a particular type or types of work places;
- the appropriateness of defining in-service PCB equipment as that containing more than 1 kg of PCBs. This is the minimum quantity of PCB contained in an electrical capacitor that is subject to regulation as PCB waste by the Ontario Ministry of the Environment under O. Reg. 11/82;
- the appropriateness of requiring less restrictive controls for PCB contaminated materials containing PCBs in a concentration less than 5000 parts per million by weight than for materials containing higher levels of PCBs. This is the level that the Ontario Ministry of the Environment is considering as the upper limit for PCB containing materials which may become subject to less stringent regulation upon disposal;
- the appropriateness of not requiring exposure controls for PCB contaminated materials containing less than 50 parts per million by weight. This is the lower limit of PCB contamination subject to regulation by the Ontario Ministry of the Environment under O. Reg. 11/82;
- available sampling and analysis methods for measurement of PCBs, PCDFs and PCDDs in air, on surfaces (swipe sampling) and in industrial materials and wastes; and
- the need for medical surveillance of PCB exposed workers and the appropriate clinical tests to identify the health effects attributable to PCB exposure.

Briefs and submissions in response to this notice must be submitted by January 10, 1986 to:

Designated Substances Project
Program Development Unit
Occupational Health and Safety Division
Ministry of Labour
400 University Avenue, 9th Floor
Toronto, Ontario

Comments received will be made available for public examination after the close of the public comment period. For further information please contact Mr. John Wilson, Toronto, (416) 965-8710.

MINISTRY OF LABOUR

NOTICE OF POSSIBLE DESIGNATION OF WELDING AND CUTTING FUMES AND GASES

TAKE NOTICE that welding and cutting fumes and gases may be designated under the Occupational Health and Safety Act section 22, as substances to which the exposure of a worker is prohibited, regulated, restricted, limited or controlled by regulation.

TAKE NOTICE that briefs or submissions are called for as to whether welding and cutting fumes should be designated and that such briefs or submissions are to be submitted within 120 days of the publication of this notice in The Ontario Gazette.

By this notice the Ministry is giving interested parties an opportunity to provide information on any and all issues which may concern them about the control of worker exposure to welding and cutting fumes and gases. The government is committed to an open and consultative process for the development of designated substance regulations on the basis that this is more likely to result in quality regulations which are more understandable and acceptable to the affected parties.

All comments that are received in response to this notice will be analyzed. In order to proceed in the most expeditious manner, should a decision be made to proceed with the designation of welding and cutting fumes, a proposed regulation will be published in The Ontario Gazette for comment not later than July, 1986. This schedule will be adhered to.

To assist interested parties in making their submissions the Division has placed a report prepared by Hatch Associates Ltd. entitled "Occupational Exposure to Welding and Cutting Hazards in Ontario" Part I and Part II, and a report by Gary Liss, M.D., Ontario Ministry of Labour entitled "The Health Effects of Welding and Cutting Fumes", in district offices of the Ministry of Labour (list attached), and in the Ministry Library, 400 University Avenue, 10th Floor, Toronto, Ontario, for review during business hours. If these hours are not convenient, please contact Mr. John Wilson at the number below.

Control Strategy

The exposure of workers to welding and cutting fumes and gases can be affected by many variables including the numerous welding and cutting processes and various electrodes, fillers and coatings, the work area (the

degree of confinement - open air, enclosed or confined space), and the operation (work practices, posture, welding position). The Division is therefore considering the development of a procedural type regulation to control the exposure of workers to welding fumes and gases. This means that welding and cutting operations will be categorized and controls for each category will be specified.

Before making further decisions on the proposed control strategy for the control of welding fumes and gases, the Ministry is seeking comments on the appropriateness of this course of action, and on any issues arising from this action which may be of concern to interested parties.

The Ministry seeks particular comment on whether all other hazards arising during the course of welding and cutting in addition to the hazard of fumes and gases should be controlled by a comprehensive control by procedures regulation rather than a designated substance regulation.

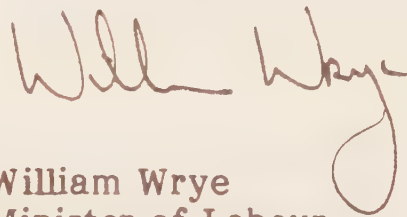

The Ministry is particularly interested in receiving comments and suggestions on the following topics:

1. the suitability of controlling welding and cutting fumes and gases in a procedural type regulation and the types of processes to be included or excluded in the regulation.
2. the adequacy of present regulations under the Occupational Health and Safety Act for the control of welding and cutting fumes and gases.
3. the classification of welding and cutting operations into categories and the basis upon which the classification is to be made.
4. the appropriate controls for each of the categories.
5. the feasibility and appropriateness of including the requirements found in existing designated substance regulations, e.g., air monitoring, assessments, control programs, medical surveillance and record keeping.
6. the concept of adopting an exposure limit for total fume as opposed to exposure limits for individual constituents of the fume.
7. the concept of using an exposure limit for total fume as a measure of compliance with the regulation.
8. the method for calculating the time-weighted average exposure of workers to welding fumes and gases.
9. the appropriate degree of health surveillance for workers exposed to welding and cutting fumes.
10. the inclusion of safety hazards in the regulation.
11. the adoption of CSA standard W117.2 Code for Safety in Welding and Cutting in the regulation.

Briefs and submissions in response to this notice must be submitted by February 10, 1986 to:

This statement briefly sets out the procedures that will be followed upon receipt of your complaint against a member of the Metropolitan Toronto Police Force and your rights under the *Metropolitan Toronto Police Force Complaints Act, 1984*.

WHO SEES YOUR COMPLAINT

1. No matter where your complaint is recorded, a copy of the complaint will be sent to the Public Complaints Investigation Bureau (the Bureau) of the Metropolitan Toronto Police Force and to the Public Complaints Commissioner.
2. The police officer concerned will be informed of the substance of the complaint unless the investigation might be adversely affected if the police officer is so informed.

INFORMAL RESOLUTION

3. An investigator at the Bureau will consider whether your complaint can be resolved informally and if this is possible he or she will attempt to do so, but only with your consent and the consent of the police officer concerned.
4. No complaint can be resolved informally unless both you and the police officer concerned agree in writing to the resolution.

INVESTIGATIONS AND REPORTS

5. If the complaint is not resolved informally, the Bureau will investigate the complaint. The investigator may interview you, the police officer concerned and any other witnesses.
6. You will receive a report approximately thirty days after you make your complaint and on a monthly basis thereafter unless the investigation of the complaint might be adversely affected by a report or there are no new matters to report. The Public Complaints Commissioner will also receive these reports.
7. If at any time you are not satisfied with the manner in which your complaint is being handled, you may contact the Office of the Public Complaints Commissioner, telephone: 963-1141.
8. In certain situations, the Public Complaints Commissioner may decide to do his or her own

investigation before the Bureau completes its investigation.

9. When the Bureau investigation has been completed, a final report will be sent to you, the Public Complaints Commissioner, the Chief of Police and the police officer concerned.

DECISION OF THE CHIEF OF POLICE

10. The Chief of Police or his or her designate will review all investigation reports and make one of the following decisions:
 - i. Decide that no further action is warranted.
 - ii. Cause a criminal information to be laid against the police officer and refer the matter to the Crown Attorney for prosecution.
 - iii. Refer the matter to a civilian Board of Inquiry for a hearing.
 - iv. Cause disciplinary proceedings to be taken against the police officer under the *Police Act*.
 - v. Counsel or caution the police officer regarding his or her conduct.
11. You will be informed in writing of the decision made by the Chief of Police.

REVIEW BY PUBLIC COMPLAINTS COMMISSIONER

12. If you are not satisfied with any of the following decisions, you may, within thirty days of notification, request the Public Complaints Commissioner to review the matter:
 - i. The decision of the Chief of Police that no further action is warranted.
 - ii. The decision of the Chief of Police to counsel or caution the police officer regarding his or her conduct.
 - iii. The decision made in a disciplinary proceeding under the *Police Act*.
13. Upon receipt of your request, the Public Complaints Commissioner will review the matter and the staff of the Commissioner have broad powers to investigate. Documents must be available and individuals can be subpoenaed to answer questions.
14. After the review, the Public Complaints Commissioner may order a hearing before a civilian Board of Inquiry where the Commissioner feels that the public interest requires it. If the Commissioner decides that there should not be a hearing, the Commissioner will give you reasons for the decision. The Public Complaints Commissioner will

write to you, the Chief of Police and the police officer concerned about the decision.

BOARD OF INQUIRY HEARINGS

15. If a Board of Inquiry is ordered, you will be notified in writing of the date and place of the hearing. You have a right to attend and take part

in the hearing and to be represented by counsel or an agent. You will also be given an opportunity, prior to the hearing, to examine any written documentary evidence or any report that will be given in evidence at the hearing. The hearing will be open to the public. You will receive a copy of the Board's decision.

ITEM: Applications that in effect split an operating licence whether by application de novo or by application for transfer.

OBJECTIVE: To prevent abuse of licence privileges, duplication of authority, distortion of competitive factors.

POLICY: The Board will henceforth only consider applications where all the privileges contained in a particular class of licence are being trans-

ferred—e.g., all the Class “T” privileges may be severed from a Class ‘A’ licence or all the Class ‘A’ privileges from a Class ‘C’ licence, etc.

EFFECTIVE DATE: Immediate.

(Applications filed prior to October 1, 1985 on which no Certificates or Orders have been issued will have the filing fee refunded.)

and Policy Statement 035/85-9-27

ITEM: Certificates where a freight forwarder, freight arranger or freight broker is a named shipper.

OBJECTIVE: To prevent the creation of freight monopolies or fragmentation of the transportation system.

POLICY: The Board will not grant a Certificate where a freight forwarder or freight arranger or freight broker is directly or indirectly the named shipper. Henceforth, if such a Certificate is inadvertently issued it will be cancelled whenever such comes to the Board’s attention.

The Board wants it clearly understood that the knowledge and needs of freight forwarders freight arrangers and freight brokers will be given due consideration in support of general freight applications.
